

# Heavy Duty Threaded or Smooth Earth Rods w/ 4 mm Banana (female) Jack.

Do you prefer ...

**Benefits of screwing :**

- better electrical contact with the ground because of no gap around the shaft.
- no need to carry a hammer.
- easier to extract if driven into a root.

Gap around a hammered rod.

Ground tight around a screwed rod.

**... screwing ?**

**Jack.**  
Compliant with 4 mm banana plugs shrouded or not.

**Big wide handle.**  
160 mm = 6.30 in length, 16 mm = 0.63 in diameter. To extract easily the rod from the ground with the two hands.

**Sharp hard tip.**  
30 ° cone. To drive into hard grounds.

**Strong and stainless designs.**  
Soldered steel parts with zinc coating. 12 mm = 0.47 in diameter shaft, 420 mm = 16.54 in overall length, 162 mm = 6.38 in width. Made for heavy duty.

**P / N 2223Drill.**

**... or hammering ?**

**P / N 2223Smooth.**

**(Hammer P / N Masette 1250G.)**

**Remote jack.**  
Kept away from the head to hammer to avoid some accidental hits onto the connection. Compliant with 4 mm banana plugs shrouded or not.

**Big strong steel head to hammer.**  
10 mm = 0.39 in thickness, 30 mm = 1.18 in diameter. To hammer strongly and not to miss the rod.

**Big wide handle.**  
160 mm = 6.30 in length, 16 mm = 0.63 in diameter. To extract easily the rod from the ground with the two hands.

**Protection**  
33 V AC / 70 V DC, 36 A.

**User Protection Level**  
(more information on the page "F.A.Q." of our website.)
